

2021 Canteen Manager Report

I would like to thank everyone for your ongoing support throughout these challenging times. I feel like we're almost turning a corner. I'm sure 2022 will be a year for fresh starts, fresh food, and fresh profits. It was a very slow start to the week, but hopefully it will pick up with online sales once students get the hang of it. We have 150 people signed up for Spriggy Schools so far thanks to Karen Cunningham for the fabulous advertising. Majority of kids ordered online with a handful ordering before school through cash and eftpos. I know there is new legislation around casual canteen staff becoming permanent. I'm grateful to have my 38 casual weekly hours approved and happy to review this later. My other team members are ineligible at this time. This will almost certainly have to be reviewed at a later date.
