Through fun and engaging activities, you will grow in confidence and see huge development in your worldview. French is a truly global language and can open an endless variety of possibilities for those who seek to explore our beautiful world. [Find out more here.](#)

What You Will Do

You will explore the French language through engaging real-world topics, and embrace the global nature of the French language and culture. Through the various sections, you will engage with the core components of writing, reading, and interacting (speaking and listening). Assessment tasks will be based on these components.

Future Opportunities

Studying another language helps your brain development and can even improve your grades in other subjects. Studies in French, specifically, can lead to career paths in the following roles, among others: Academics; Diplomat/Foreign Services; English Instructor Abroad; French Teacher.
