

Visual Arts.

Visual Arts provides opportunities to experience all aspects of the art world, including practical tasks, Critical and Historical studies, and the development of personal art-making practice.

ATAR - BOARD DEVELOPED - CATEGORY A

About the Course

The Visual Arts course aims to foster interest and enjoyment in making and experiencing Art in from a broad range of sources, times, and methods. Students build informed points of view about Artists and their work, develop critical thinking skills in Art Analysis while developing a portfolio of artworks that explores their own ideas, passions, and interests through traditional and experimental art-making. [Find out more here.](#)

What You Will Do

You will produce a portfolio of artworks using at least two methods including painting, drawing, printmaking, sculpture or photography, and digital media, installation, ceramics, etc. You will develop autonomy in Art making, producing a Body of Work during the year in their own chosen style, method, and topic, and continue to use a VAPD to assist in building their own Art practice.

Future Opportunities
