

# Visual Design.

*Hands on experiences exploring all aspects of the designed world.*

**NON-ATAR - BOARD ENDORSED - CATEGORY A**

## About the Course

Visual Design plays a major role in many aspects of Society including functional objects, places, spaces, and products we use daily such as environmentally sustainable packaging. Fashion and brand names items and designer goods, advertising, gaming, and entertainment. [Find out more here.](#)

## What You Will Do

You will engage in a broad range of problem-solving activities designed to explore the relationship between form and function in designed objects. Modules include illustration, cartooning and graphics, wearable art, jewelry, packaging, object design, and interior and exterior design. *“Visual Design is a chance to discover new uses for Art in everyday life. You get to think creatively and most lessons are practice-based.” Yr11 Visual Design 2021*

## Future Opportunities

Design careers are integral to all aspects of society including graphics, gaming, cartooning, illustration, advertising, fashion, film, architecture, garden and interiors, furniture, product design, sustainable design, and inclusive design for all members of our diverse society. A range of design-based courses are available for further study at University, and TAFE.
