# South Coast Employment Forum

The 2022 Clontarf South Coast Employment Forum has been an overwhelming success, with senior Clontarf students from across the region provided a fantastic opportunity to mix with numerous Clontarf partners, held at the Warilla Bowls Club.

Employment Officer Joshua Toohey ensured the event would produce first class results, not only with his high level of planning and attention to detail, but the rich and powerful alumni interviews interspersed within the event that provided a brilliant insight into the working lives of many of our young men who have been through the Clontarf programme and are building careers for themselves.

Students from across the region helped to MC the event, with a number of alumni illustrating both their own progression and the mutually beneficial working relationships of Clontarf and our partners.

Those in attendance included Snowy Hydro, the Woolworths Group, Qube Holdings, TransGrid, Fulton Hogan, Joss Group, Blackwoods, Target, Kmart, the NSW Minerals Council, the Navy and the University of Wollongong, as well as school staff members from the respective academies, including Ms. McNeil from Vincentia High School.

A number of the Vincentia students were pleasantly surprised by just how much they benefitted from the day, with several new ideas for careers beyond school now evident.
